# Midwest Central Railroad

**FORM  
19**

Train Order Number: 37

To Engineer: Tom, Engine 9804 at Main Yard,

At the main yard, MP17.2:

- Pick up 6 covered hoppers from track 8
- Pick up 7 boxcars from track 12
- Pick up 10 open hopper cars from track 11

Operate Extra 9804 West

Load the 6 covered hopper cars at Stockman Grain Elevator, MP25.4

At Caldwell Industrial Area, MP27.6:

- Set out the two Union Pacific boxcars at Despey Radar Systems
- Pick up three ACY boxcars from IKEA Distributing

At the Tremont Industrial Area, MP30.7:

- Load the five MidCen boxcars with goods at Freikenberg Iron Works

At the Dawson Limestone Quarry, MP35.9:

- Load the ten open hoppers with Limestone Aggregate

Proceed to Westfield Yard, MP48.6, park the train at the west end of track 1.

Take a break, then drive the return trip to the main yard in Part 2.

**Special instructions:**

**Weather is expected to be good, traffic relatively light.**

**You are responsible for switching all junctions. Restore all changed mainline turnouts after use.**
