Train Order Number: 39

To Engineer: Tom Engine 9804 at Westfield Yard

At the Westfield yard, MP48.6:

- Detach 9804 from the current consist
- Use the automatic turntable to turn the engine back east
- Add engine 9811 to the consist to increase your motive power
- Pick up the livestock cars from track 3
- Pick up the tank cars from track 4
- Pick up the flat cars from track 5

Operate Extra 9804 East:

At Harding Bauxite Mine, MP44.3, pick up 10 cars of Bauxite

Proceed east and pull off into the Kingmine pass track, MP38.5, to await the arrival of the Amtrak Auto Train.

Once Amtrak has passed, proceed to Kingmine ranch, MP38.0 and load cattle.

At Tremont Refinery, MP28.2, unload crude oil.

At Garfield Lumber, MP18.3, load lumber.

On arrival at the main yard, MP17.2:

- Park the train at the east end of track 7.
- Detach the engines, and park them at the tower.

Special instructions:

Weather is clear, but expected to worsen.

You are responsible for switching all junctions. Restore all changed mainline turnouts after use.
