Train Order Number: 107

To Engineer: Adair at South Claremont

Operate Engines 9821/9822/9823 at South Claremont

Pick up fifteen open top hopper cars at South Claremont Mining Company
Load the cars with iron ore.

Proceed to trackmark South Claremont Hold Point 1

Detach the locomotives and use the Y track to turn them around.

(SC Y West to SC Y North to SC Y east)

Re-couple to the train

Operate Extra 9821 North to the mainline at Huntersville

Operate Extra 9821 West to Friekenberg Iron Works (MP30.5)

Unload the iron ore at Friekenberg

Optionally, return to main yard, MP17.0, set out empties on track 7, return engines to control tower.

Special instructions:

You are responsible for switching all junctions. Restore all changed mainline turnouts after use. To help you navigate, download the system map from the MidCen website.
