Train Order Number: 108

To Engineer: Cafe at East Shelton Yard

Inbound Amtrak train 25 is having trouble with one of its locomotives. When the train reaches the yard, Ami, the driver, will detach unit 220 and pull out into the yard lead. Take control of the remaining unit 224.

Operate train 25, engine 224, West:

Make a station stop at East Shelton, milepost .5

Make a station stop at Huntersville, milepost 12.9

Make a station stop at Garfield, milepost 18.0

Make a station stop at Caldwell, milepost 27.3

Exit the route through the Westfield portals, milepost 34.3

Special instructions:

You are responsible for switching all junctions. Restore all changed mainline turnouts after use.

This is a night run.
