Train Order Number: 38

To Engineer: Graham at Main Yard

Operate Engines 9821/9822 in Main Yard (Milepost 17.0)

Pick up fourteen Illinois Central Hoppers from track 3  
Pick up eighteen Illinois Central Hoppers from track 1

Operate Extra 9821 East to Big Walker Coal Mine (MP9.5)

Load sixteen hoppers at Big Walker Mine  
Load the remaining sixteen hoppers at Jackson Coal Mine

Operate Extra 9821 West from the coalmines to main yard (MP17.0)

At Mason Power Plant, MP16.2, unload sixteen coal hoppers

At Main Yard, set out the sixteen empty coal hoppers on track 7

Operate Extra 9821 West to Tremont Industrial Area, (MP28.2)

Unload remaining sixteen coal hoppers at Caldwell Power Plant

Return to main yard, MP17.0, set out empties on track 8, return engines to control tower.

Special instructions:

You are responsible for switching all junctions. Restore all changed mainline turnouts after use.

The run from the main yard to Caldwell Power Plant is optional. You can choose to terminate the session by setting out the other sixteen loaded hoppers on track 8 and returning the engines to the control tower.

Made Complete
